

2019-2020 EMS 1:1 Protection Plan

Terms and Conditions of the Computing Device Agreement:

All students and parents may choose to have a Protection Plan for their Chromebook to help cover costs if the device is accidentally broken or damaged. The cost of the Protection Plan is \$20 annually per device and is nonrefundable. While there is no cost for the use of the Chromebook, it is imperative that the Chromebook the student is issued be maintained and handled in a responsible way. If the Protection Plan is not taken, you are responsible to pay for the cost of the repair(s), which may also be the full replacement cost depending upon the scope of the damage. The Protection Plan safeguards you against accidental damage, such as unintentional spills, drops and/or collisions.

<i>Types of Damage</i>	<i>Examples of Damage Covered</i>
Unintentional liquid spill damage	Damage from spilled drinks
Unintentional breakage	Broken AC or USB port connectors
Drops or falls	Cracked LCD screen
Missing keyboard keys	

The protection program does not cover misuse, neglect or intentional damage. Students will be responsible for the entire cost of repairs or replacement to computing devices damaged through student misuse, neglect, intentional damage or loss. In case of theft, the school administration must be notified immediately and an official police report will be required. In the event that the computing device is stolen as a result of the student's carelessness, the student will be responsible for the replacement cost of the computing device. If the power cord is damaged or lost, the student is responsible for the full cost of replacement as well. Multiple damage events may not be covered by this policy (i.e. more than 2 damages in one year may be deemed neglect and not covered by this policy).

We highly recommend that parents take advantage of this individual insurance opportunity. Insurance payments can be made through the PayFort system. If you are not already registered for PayFort, please click on the following link: <http://payfort.net/> Once on the payfort.net website, please click the "Sign Up" option from the menu. Please note that there are internet convenience fees which are detailed once you sign into the system. The last day to enroll is September 6, 2019.

Costs for intentional damage and damage to those devices without insurance are listed below for your convenience.
